CASE STUDY

EXPLORE THE NEW WAY OF LEARNING

PharmaSoft ACADEMY

*PharmaSoft's Dedicated Learning Platform for
Pharmacovigilance and Regulatory Affairs*

A New Chapter in Pharmaceutical Education

Launched on **27 March 2026**, PharmaSoft ACADEMY is PharmaSoft's newest platform, a major step in extending the company's expertise beyond service delivery into structured digital learning.

The platform brings together PharmaSoft's pharmacovigilance and regulatory affairs training activities in one dedicated environment, designed specifically for sector-focused professional education.

Scalable Growth

Programs
that expand
with demand

Sector-Focused Learning

Industry-specific
courses for
pharma teams

PharmaSoft ACADEMY

Accessible Training

Anytime,
anywhere
learning access

Digital Platform

Online LMS
with modular
content

From Field Experience to Formal Education

Training has long been part of PharmaSoft's contribution to the pharmaceutical sector. Over time, the need for a more structured, accessible, and scalable model became increasingly clear, one that could match the realities and demands of pharmaceutical work.

A Structured Home for Sector-Specific Learning

PharmaSoft ACADEMY serves as the digital home for PharmaSoft's training activities across:

- ➔ **Pharmacovigilance**
Practical, field-aligned PV training programmes
- ➔ **Regulatory Affairs**
Structured content covering regulatory frameworks and compliance
- ➔ **Professional Development**
Sector-specific education for industry professionals at every stage

Built for the Sector

PharmaSoft ACADEMY is not a generic training portal. It is built around the actual educational needs of the pharmaceutical sector, grounded in PharmaSoft's direct field experience in pharmacovigilance and regulatory operations.

Dedicated Digital Environment

A purpose-built platform, designed exclusively for pharmaceutical professional education.

Field-Grounded Curriculum

Content reflects real operational experience in PV and regulatory affairs, ensuring practical relevance at every level.

Scalable Architecture

The platform is structured to grow, enabling new programmes, audiences, and content areas to be added as the sector evolves.

Elevating Training to a Core Capability

Before the Academy

Training was delivered as a standalone activity, valuable, but without a dedicated structure, consistent format, or scalable model to support future growth.

After the Academy

PharmaSoft now operates a dedicated education platform, a structured, strategic asset that positions knowledge delivery as a long-term commitment to the sector, not a secondary service.

This shift creates value not only for current clients, but for the wider pharmaceutical community, supporting knowledge development where practical, field-based education matters most.

One Platform. Structured Learning. Sector-Wide Impact.

Launched in **March 2026**, **PharmaSoft ACADEMY** brings PharmaSoft's pharmacovigilance and regulatory affairs training expertise into a dedicated digital platform, designed for structured, scalable, and sector-specific learning that grows with the industry.

**Complex processes
need the right partner.**
